MucoStop contains a blend of enzymes formulated to break down mucus and reduce histamine.*

Mucus is a beneficial protein created by the body to protect vital organs and bind up pathogens for removal from the body. The purpose of MucoStop is to support normal mucus function while helping to speed the breakdown and removal of inappropriate mucus. MucoStop is a blend of proteolytic enzymes to help reduce the effects of histamine induced inflammation.

Proteolytic enzymes are enzymes that break down proteins. Not all proteases, however, can break down all proteins. For example, a protease that effectively digests food protein will not be a good protease for mucus protein. The mucus protein requires an enzyme classified as proteolytic and mucolytic.

Mucolase is a proteolytic enzyme that has mucolytic properties, meaning it targets and hydrolyzes inappropriate or excess mucus.

Because mucolase comes from the proteolytic family of enzymes it helps to reduce inflammation and support the immune system by hydrolyzing dead and damaged proteins. Mucolase may also have an effect on proteins that do not belong, such as bacterial infections or viral loads.*

MucoStop contains Mucolase combined with protease and amylase, blended to assist in overcoming the symptoms often associated with sinus and chest congestion. Due to the amylase Thera-blend™ it may also help the body reduce histamine levels and promote antihistamine qualities, assisting with seasonal allergies.*

Recommended Usage

Two capsules three times a day on an empty stomach. Children and sensitive individuals: One capsule, three times a day on an empty stomach.

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 45

Amount Per Serving		%DV
Mucolase	60 mg	*
Amylase Thera-blend™	29,700 DU	*
Protease Thera-blend™	90,000 HUT	*
Glucosylase	100 AG	*
Beta Glucanase	120 BGU	*
Lipase Thera-blend™	1,000 FCCFIP**	*
Alpha Galactosidase	200 GALU	*
Cellulase Thera-blend™	800 CU	*
Xylanase	1,100 XU	*
Phytase/Pectinase	700 Endo-PGU	*
Hemicellulase	60 HCU	*
Invertase	10 INVU	*

* Daily Value not established

OTHER INGREDIENTS: 100% Vegetarian Capsule (cellulose, water)
CONTAINS NO dairy, preservatives, salt, sucrose, soy, wheat, yeast, nuts, corn, gluten, casein, potato, rice, artificial colors or flavors.

** FCCFIP is the newest addition to the fourth version of the Food Chemical Codex. The FCC is the only FDA approved way of measuring plant based enzymes.

Keep closed in dry place; do not expose to excessive heat.
